

Event: Field Trip to Neladasiri Agro Resort

Date: 21st August 2025

Time/ Duration: 12 Hours

Venue: Neladasiri Agro Resort

No. of Participants: 201 Students

Objectives

1. To provide students with a fun-filled recreational experience outside the classroom.
2. To encourage teamwork, bonding, and social interaction among students.
3. To enhance physical well-being through outdoor play and amusement activities.
4. To spark curiosity and learning through the drone session, introducing students to new-age technology.
5. To create joyful memories through engaging performances and activities.

Event Details

The day began with a wholesome breakfast, after which students eagerly explored the outdoor play area, enjoying swings, see-saws, and slides. The highlight of the morning was the swimming pool and rain dance floor, where children enjoyed splashing around and dancing to lively music. They also experienced the amusement park rides such as the merry-go-round, trampoline, and Columbus ride, which added to the thrill and joy of the day.

A special session on drones was introduced to the students, and to the fascinating world of technology, where they learned how drones work and their various applications in today's world. After a delicious lunch, students were treated to a lively magic show, which left them amazed and entertained. The trip concluded with light snacks, and each child was gifted a pen as a takeaway, making the day both memorable and meaningful. The trip successfully combined fun, learning, and recreation, giving students a refreshing break while fostering curiosity and creativity.
