

Event: Swachh Bharat Campaign – Cleanliness Drive by Interact Club

Date: 25.08. 2025

Time/ Duration: 7.30 AM - 8.45 AM

Venue: Outside the School Campus

No. of Participants: 45

Class Participants - Grade IX- XII.

Objectives

- To promote awareness among students and the community about the importance of cleanliness and hygiene.
- To inculcate social responsibility and encourage active participation of students in community service.
- To collaborate with BBMP personnel and understand the role of civic workers in maintaining public spaces.
- To develop teamwork and leadership skills by engaging students in a collective cleanliness initiative.
- To contribute towards the vision of Swachh Bharat Abhiyan by keeping the surroundings clean and inspiring others to do the same.

Event Details

The Interact Club of our school organized a Cleanliness Drive on 25th August 2025 as part of the Swachh Bharat Abhiyan. A total of 45 enthusiastic students actively participated in this noble initiative with great zeal and commitment.

The drive was carried out on the road outside the school campus, where students, guided by teachers, worked together to clean the surroundings. They collected litter, removed plastic waste, and swept the road to make the area neat and hygienic.

An important highlight of the campaign was that the students worked alongside the BBMP personnel learning the value of teamwork and civic responsibility. This collaboration gave them first-hand experience of how community helpers contribute daily to keeping the city clean. Through this activity, students not only contributed towards maintaining cleanliness but also spread awareness about hygiene and environmental care among the local community.

The campaign truly reflected the vision of the Swachh Bharat Abhiyan initiated by our Hon'ble Prime Minister and encouraged everyone to take responsibility for their surroundings. The dedication and teamwork displayed by the Interact Club members, in association with BBMP staff, made the drive a remarkable success and an inspiring step towards building a clean and green nation.
